

Big Fun

Big Fun is the band that will literally make your party. From the first song, Big Fun's "Wall O' Sound" pins your ears back and makes you instinctively reach for the nearest dance partner. As the eleven-piece horn band blisters through a vast array of R&B favorites. After all, the band is from Chicago. With horns blarin' and guitars screamin', they'll wear out even you most energetic guests with a take-no-prisoners combination of Tower of Power, Earth Wind & Fire, and Chicago.

Big Fun also plays Motown like nobody's business. Plus funk, sly, Aretha, James Brown, swing, and rock and roll classics from the 70s, 80s and 90s. Simply put, their only requirement when choosing a song is its deep rooted power to get you movin' and groovin', whether it's slow or fast. And no band in the land plays more Blues Brothers, with the exception of the Blues Brothers themselves. In fact, if you prefer, Big Fun has a Blues Brothers show they can include. No matter how you sculpt it, there's always more BIG FUN to be had...from a Disco show to a Latin show to a summer fun show. In short, Big Fun will provide non-stop, tighter than a snare drum, bop 'til you drop entertainment. All with one soul objective in mind - to have party-goers raving about how much BIG FUN they had. And what more could anyone want?
