

E.C. Scott

## EC Scott

E.C. Scott has developed her own style, a refreshingly original and distinctively modern approach that owes as much to her exceptional talent as a songwriter as it does to her remarkable, attention-grabbing vocals. E.C.'s enticing, rich voice, hook-laden arrangements, and intelligent, at times humorous, lyrics come together to produce songs that aren't easily forgotten. "I Love the Blues," she says. I just like it with a today sound."
