## M-80's

The **M-80's**, like their signature 70's band Grooveline, pay homage to the outrageous fashion and music of a not so distant era. Definitely an alternative to the typical party band, the M-80's perform a variety of 80's gems such as Thomas Dolby's "She Blinded Me With Science" and Toni Basil's "Oh Mickey". The **M-80's** boisterously entertaining presence, show stopping costumes and energetic breakdancing is a truly entertaining recreation of 80's pop.
